### 4. FIRST AID MEASURES

**Inhalation:**
Move to fresh air. If symptoms persist, seek medical advice. Persons suffering from allergic reactions to isocyanates should avoid contact with the product.

**Skin contact:**
Wash affected area immediately with soap and water. If symptoms develop and persist, get medical attention. Remove contaminated clothes.

**Eye contact:**
In case of contact with the eyes, rinse immediately with plenty of water for 15 minutes, and seek immediate medical attention.

**Ingestion:**
Do not induce vomiting, seek medical advice immediately.

**Symptoms:**
See Section 11.

**Notes to physician:**
There is no specific antidote. An individual having a dermal or pulmonary sensitization reaction to this material should be removed from further exposure to any diisocyanate. Treatment based on judgement of the physician in response to reactions of the patient.

### 5. FIRE FIGHTING MEASURES

**Extinguishing media:**
Carbon dioxide. Foam Water fog.

**Special firefighting procedures:**
Wear self-contained breathing apparatus and full protective clothing, such as turn-out gear.

**Unusual fire or explosion hazards:**
Fumes and vapors from thermal decompositions vary in composition and toxicity.

**Hazardous combustion products:**
Isocyanate vapors. Nitrous gases Smoke.

### 6. ACCIDENTAL RELEASE MEASURES

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

**Environmental precautions:**
Do not empty into drains / surface water / ground water.

**Clean-up methods:**
Ensure adequate ventilation. Wear suitable protective clothing, gloves and eye/face protection.
7. HANDLING AND STORAGE

Handling: Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. Avoid spraying/aerosol generation. Avoid extreme temperatures. Protect from moisture. Use only with adequate ventilation. See advice in section 8 Keep out of the reach of children.

Storage: For safe storage, store between 20 °C (68°F) and 40 °C (104°F). Below temperature limit the product properties will change. Keep closed in a cool, dry area. Store away from heat, sparks, flames, or other sources of ignition.

For information on product shelf life, please review labels on container or check the Technical Data Sheet.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Engineering controls: Use local ventilation if general ventilation is insufficient to maintain vapor concentration below established exposure limits.

Respiratory protection: In such cases, or whenever concentrations of MDI exceed the TLV, respiratory protection must be worn. If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH.

Eye/face protection: Safety glasses with side-shields.

Skin protection: Use impermeable gloves and protective clothing as necessary to prevent skin contact.

## 11. TOXICOLOGICAL INFORMATION

**Relevant routes of exposure:** Eyes, Inhalation, Skin

### Potential Health Effects/Symptoms

**Inhalation:** Abrasion of cured material such as by sanding or grinding could release respirable particles of silica quartz, a cancer hazard by inhalation. Normal use of this product causes no such release. May cause allergic skin and respiratory tract reaction. Moderate respiratory tract irritation. Exposure to diisocyanates may cause the following human health effects: Skin irritation and allergic reactions, respiratory irritation, respiratory sensitization and lung toxicity; some diisocyanates also may cause cancer. The likelihood that these effects will occur depends on a number of factors; among them the level of exposure, frequency of exposure, part of body exposed and sensitivity of the exposed individual. Persons suffering from allergic reactions to isocyanates should avoid contact with the product.

**Skin contact:** Contact with skin can cause irritation and allergic reaction (sensitization) in some individuals. This product may discolor the skin.

**Eye contact:** Causes eye irritation.

**Ingestion:** Do not taste or swallow.
